- **Several large subscriptions in JP, USA, Europe**
- **Real time Brainstorming** – Develop the idea with computer suggested options
- **Widen scope of invention** – Evaluate various applications
- **Improve Quality of initial idea**

Novelty Checker

An AI-powered prior-art and novelty search tool. Submit an idea or invention disclosure, and the platform searches global patent and non-patent literature to return a ranked, easy-to-read novelty report in minutes - backed by large subscriptions across Japan, the USA and Europe, covering 100+ countries.

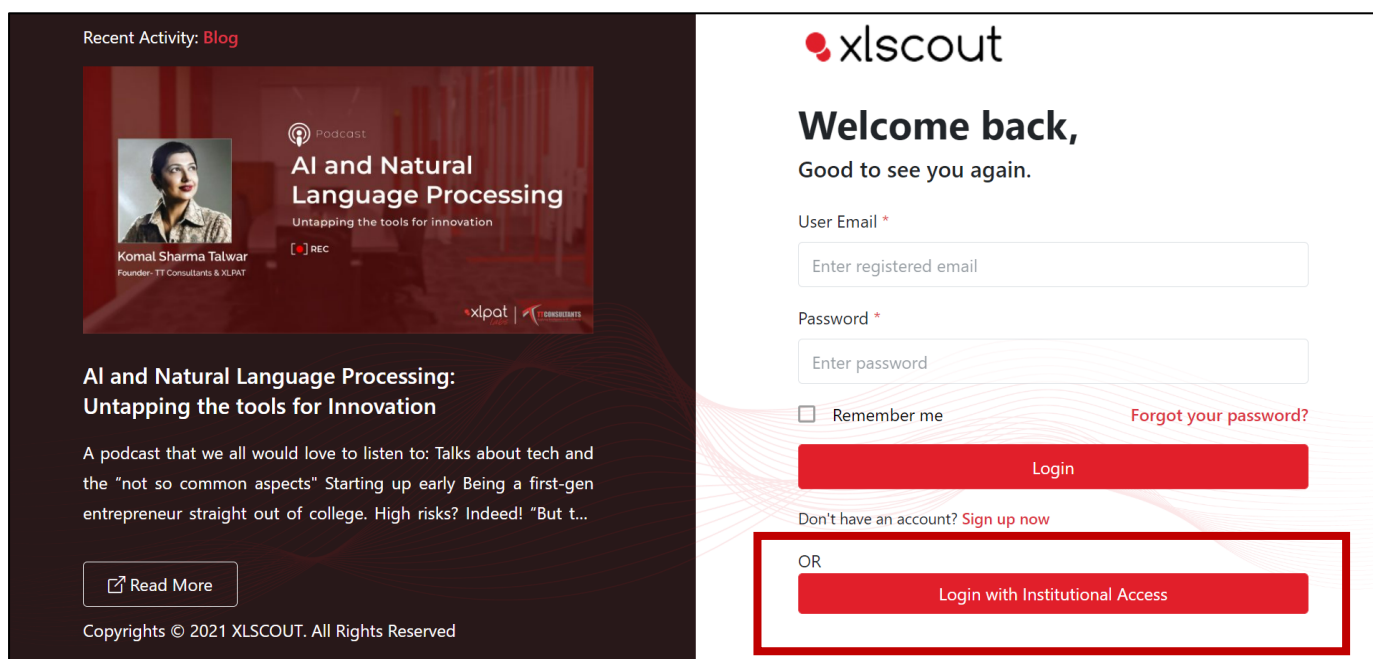

Ideacue

A generative-AI ideation engine that suggests new and innovative directions. It supports real-time brainstorming with AI-suggested options, helps widen the scope of an invention across applications, and improves the quality of the initial idea - with novelty checked in a single click.

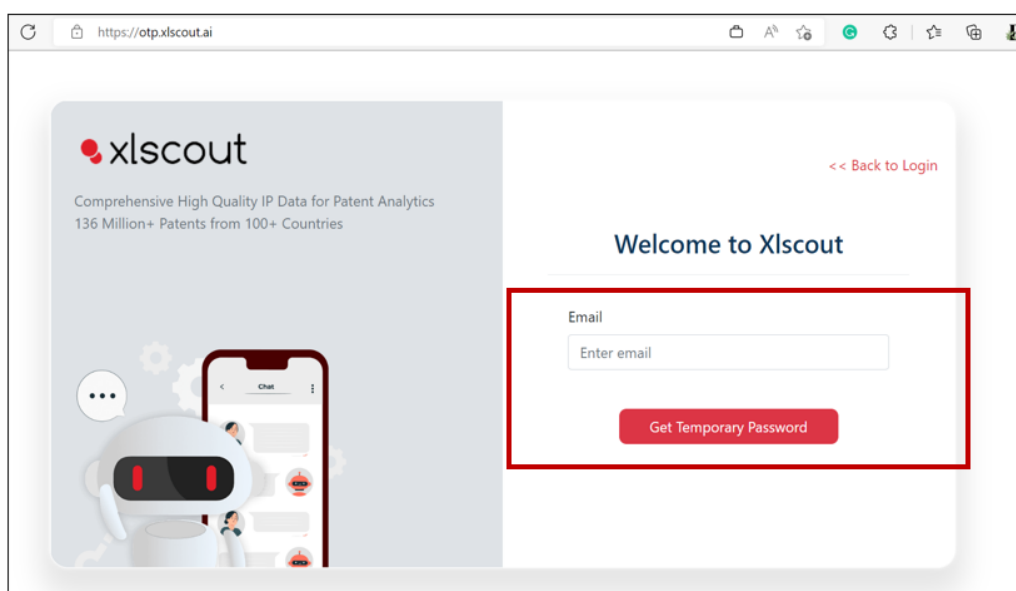

The following pages explain how to log in via institutional (SSO) access.

OTP Access Flow

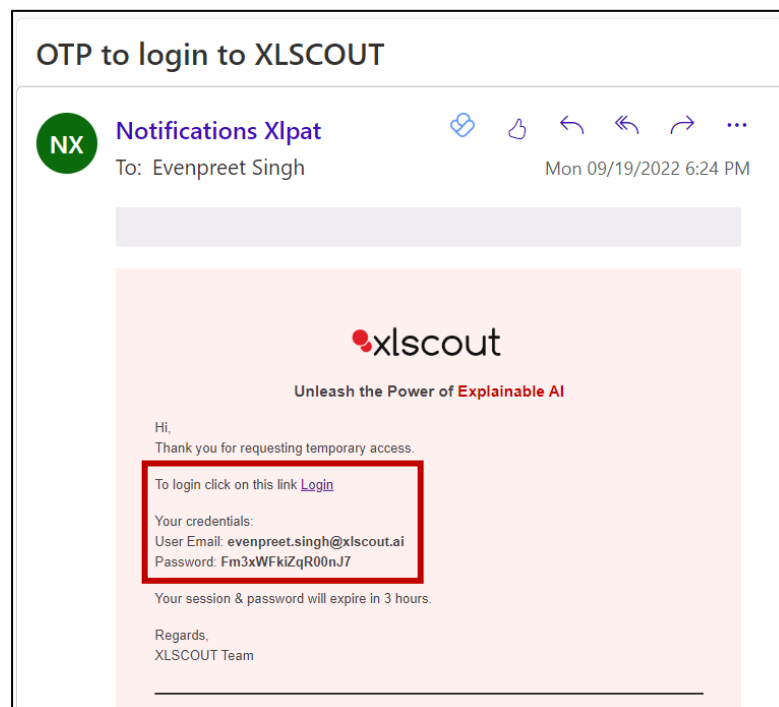

1. Visit www.xlscout.ai and click on Login. You'll be redirected to the below login page:

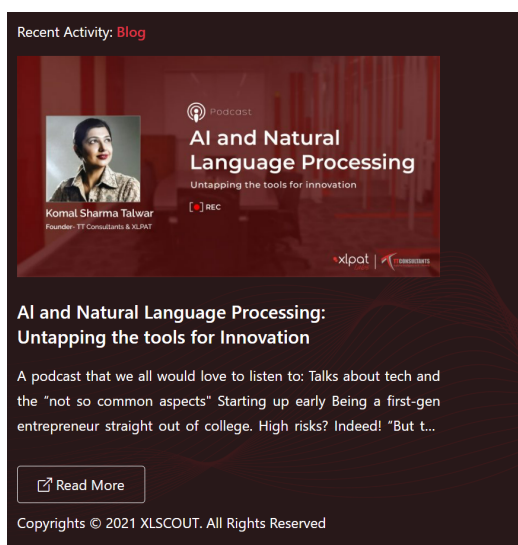

2. Click on the 'Login with Institutional Access' button. You'll be redirected to the below page:

3. Enter your institutional email ID and click on 'Get Temporary Password' to get the login details.
4. You'll receive an email on your email ID with login details.

- Click on the Login link. Enter the credentials shared on email and click on Login button to access the Platform.

Welcome back,

Good to see you again.
